 SandboxVR.com/Birmingham

The future of entertainment has arrived in Birmingham

Our fully immersive VR experiences allow large groups, split into teams of up to 6 players, to explore a variety of virtual worlds, as if you've stepped into your favourite game or movie.

Using the most advanced VR technology on the planet, groups can see and physically interact with each other, just like in the real world.

Hollywood motion-capture cameras and haptic feedback suits create a completely immersive experience enabling you to touch and feel your way through the game, and truly transport yourself to a new reality.

Choose to transport yourselves into any of our 10 exclusively developed realities.

Whether you're looking to save the planet from invading aliens, battle pirates, enter the official Squid Game arena, or be amongst the first to experience Stranger Things Catalyst, our newest Netflix partnership, there's an experience to suit all groups.

With each game lasting 40 minutes, please allow 1 hour per 36 people in your group to enjoy our full VR experience.
