CHRISTMAS @BIG FRIDGE

XMAS ————— @BIG FRIDGE

OVERVIEW

This Christmas, Big Fridge continues to bring art, technology and community together to create meaningful, sustainable change. Our approach builds a connected ecosystem of creative spaces—from Soho to the Royal Docks—proving that culture, community and commerce can thrive together. Across digital, physical and social spaces, we are creating a coherent creative ecosystem that feels world-class, credible and alive—a vision that feels especially resonant during the festive season of connection and hope.

XMAS ————— @BIG FRIDGE

A Historical Landmark
COMPRESSOR HOUSE

The main hall is defined by its sheer volume of space, high ceilings, and dramatic sightlines. This is not a pre-packaged event space; it's an open shell ready to be transformed.

Authentic Industrial Features

Exposed brick, weathered surfaces, metal beams, steel gantries, and original dockside infrastructure create an atmosphere of raw, gritty elegance.

A Versatile Setting

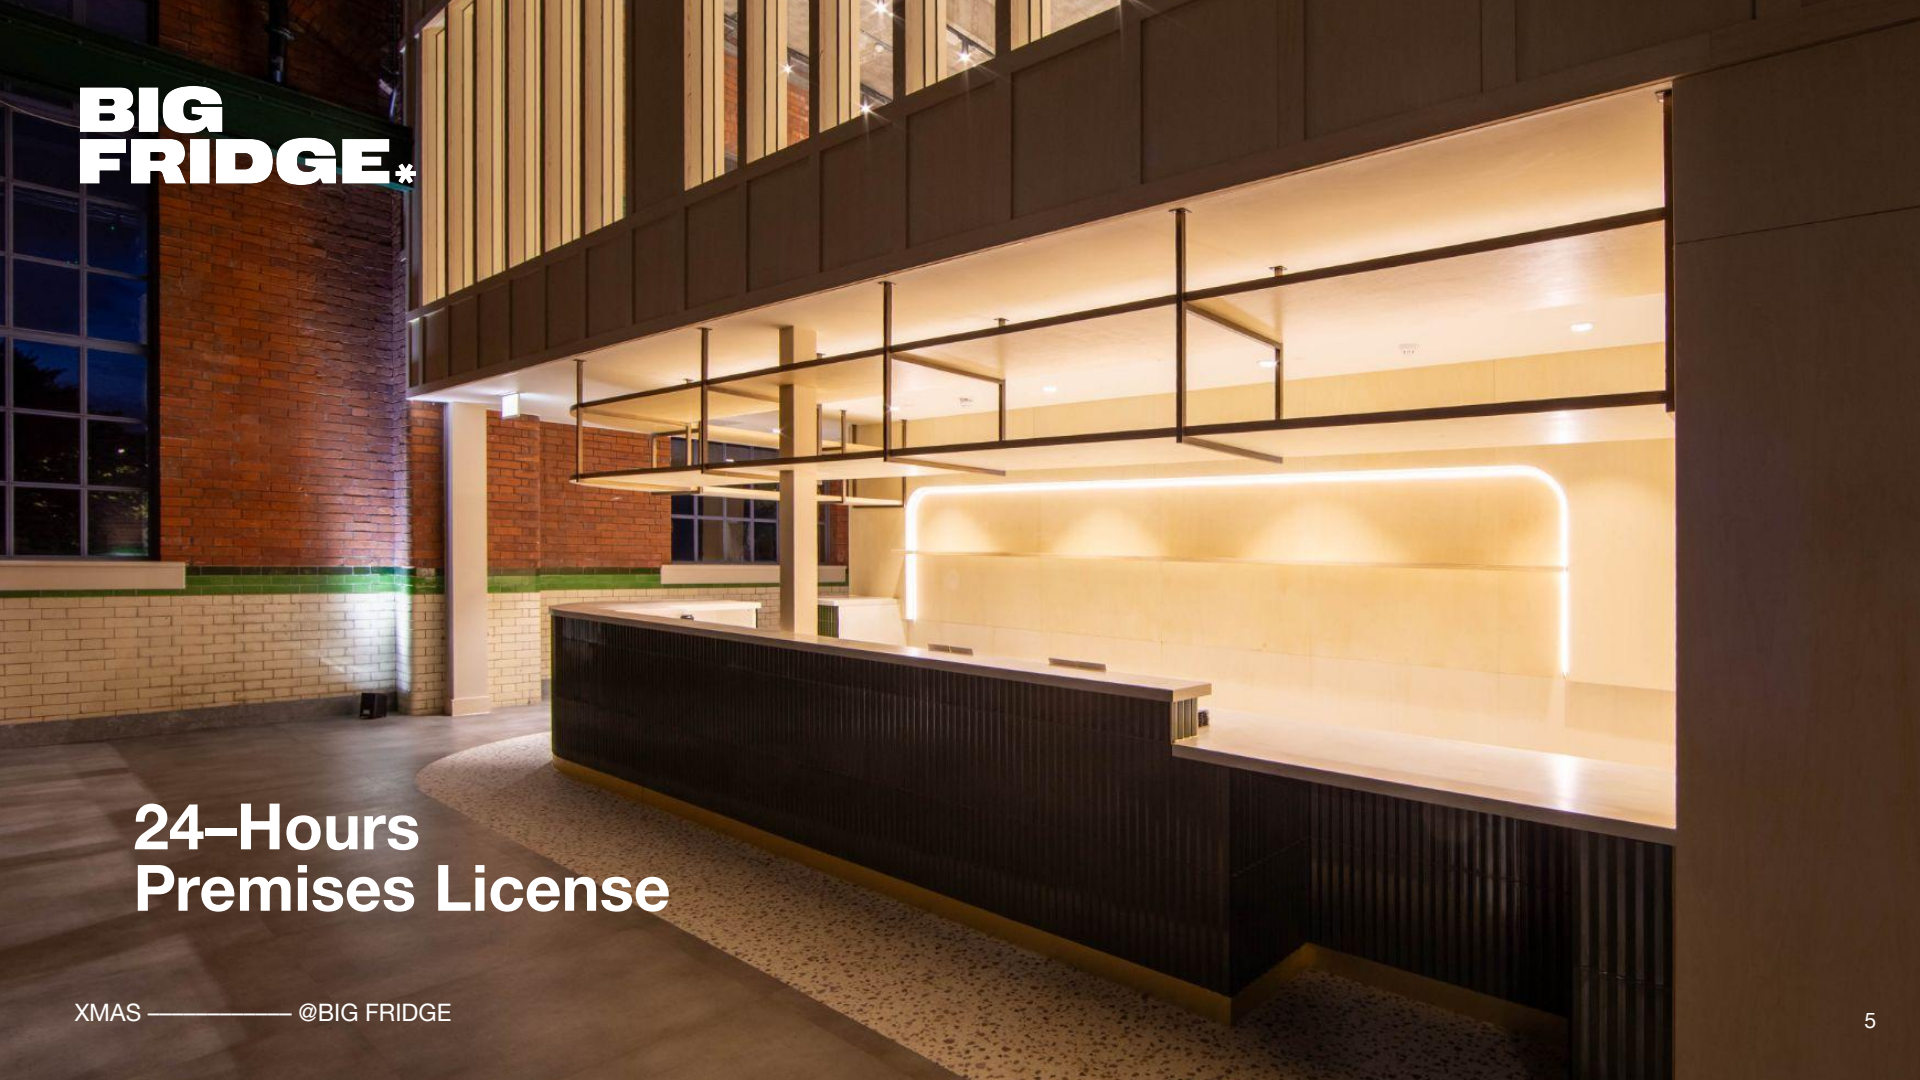

The space can be transformed into anything from an immersive art installation to a romantic, fairy-lit dining room. Its dramatic acoustics also lend themselves to live music and memorable speeches.

Waterfront Location

Set directly on the waterfront with uninterrupted dockside views, the exterior provides a stunning backdrop for outdoor drinks and wedding photos.

State-of-the-Art Tech

For modern couples, the venue is equipped for live streaming and hybrid events, allowing you to share your day with loved ones across the globe.
