## CHRISTMAS PARTIES IN MUSEUM GALLERIES

---

London Transport Museum occupies the original Victorian flower market, and the Museum Galleries span two floors.

To enhance all Christmas bookings this year, we are transforming the spaces and introducing a theme throughout the venue via the incredible Victoria Owen Creative.

Taking inspiration from Frederick Charles Herrick's 1992 'The Source of London's Merry Christmas' poster, the Museum will feature sustainable installations of holly garlands, trees and paper chains.

The infamous Winter Wonderland and Santa Grotto will be fully accessible for event guests.

Our packages include all the necessities to make a memorable Christmas party to wow your guests in a unique and exciting venue full of history.

# SUSTAINABILITY

---

Sustainability is at the heart of everything we do at London Transport Museum.

We are reimagining what it means to be a sustainable museum through our programmes, by being energy-efficient, and through our dedication to reducing our carbon footprint.

On the ground Improving the energy efficiency of our lighting, heating and cooling appliances.

Prioritising recycled and sustainable materials in our exhibitions, displays, and what we sell in our shop.

Incorporating digital elements to reduce the need for printed materials.

Educating our staff and customers on the importance of green practices.

Our green journey is a collective effort, and we want to make sure our staff and visitors join us on this journey.

Some of the ways we are working to build a community that embraces sustainability includes providing carbon literacy training to our staff, ensuring they are equipped with the knowledge to make sustainable choices in their work and daily lives.
