London Transport Museum

London Transport Museum is delighted to be working in partnership with Searcys Events for Christmas parties this year.

In the heart of Covent Garden piazza, and set in London's original flower market, London Transport Museum provides two unique spaces for all event types.

The stunning Museum Galleries can host traditional dinners for up to 230 guests and Yuletide drink receptions for up to 600, against an unforgettable backdrop of iconic Routemasters.

Searcys Events

Searcys has been at the heart of British hospitality since 1847, founded by the pioneering confectioner John Searcy. For over 175 years, we have set the benchmark for exceptional food, service and event delivery.

Whilst part of the Searcys family, Searcys Events very much has its own character. Think of us as the creatively minded niece – raised on the same values, standards and love of hospitality, yet free to explore new ideas, places and ways of celebrating.

We share the DNA that has defined Searcys for generations, but where Searcys is rooted in iconic venues, Searcys Events is designed to roam.

Christmas parties in museum galleries

London Transport Museum occupies the original Victorian flower market, and the Museum galleries span two floors.

To enhance all Christmas bookings this year, we are transforming the spaces and introducing a theme throughout the venue via the incredible Victoria Owen Creative.

Taking inspiration from Frederick Charles Herrick's 1992 'The Source of London's Merry Christmas' poster, the Museum will feature sustainable installations of holly garlands, trees and paper chains.

The infamous Winter Wonderland and Santa Grotto will be fully accessible for event guests.

Our packages include all the necessities to make a memorable Christmas party to wow your guests in a unique and exciting venue full of history.

Sustainability

Sustainability is at the heart of everything we do at London Transport Museum.

We are reimagining what it means to be a sustainable museum through programmes, by being energy-efficient, and through our dedication to reducing our carbon footprint.

- On the ground improving the energy efficiency of our lighting, heating and cooling appliances
- Prioritising recycled and sustainable materials in our exhibitions, displays, and what we sell in our shop
- Incorporating digital elements to reduce the need for printed materials
- Educating our staff and customers on the importance of green practices

Our green journey is a collective effort, and we want to make sure our staff and visitors join us on this journey.

Some of the ways we are working to build a community that embraces sustainability includes, providing carbon literacy training to our staff, ensuring they are equipped with the knowledge to make sustainable choices in their work and daily lives.

Location

London Transport
Museum Covent Garden
Piazza London
