

Activities at Thornton Hall Hotel and Spa

LAST TEAM STANDING

If you're looking for a bit of healthy competition then this is the challenge for you! Taking inspiration from TV game shows, classic party games and other random sources, the Events Made Simple crew have created a fast-paced activity that will test your teams to the limit. Each challenge sees the groups go head-to-head to find out which one is the strongest. With both teams competing in the same challenge at the same time, the pressure is really on to get it right.

AIR RIFLES

This simple and easy form of target shooting is the perfect addition to any conference or event and has proved to be a firm favourite. We get our teams started on some easy close-range targets. After some expert instruction and a little practice, your team will take part in a friendly competition to shoot at a distance of around 20-50 paces. We have paper targets to showcase your skills as well as custom-made "knock down" targets and static clay pigeons... some of which even explode.

THE TREASURE CHEST

Here at Events Made Simple we took a standard treasure hunt, combined it with 9 fantastic team building challenges and gave it a big injection of fun and healthy competition to create 'The Treasure Chest'. Our giant chest is filled with 'must have' prizes such as wine/chocolates and secured with 9 padlocks. Your group will be divided into small teams. After that it's a race to be the first team to get the 9 keys needed to break open the locks and claim the treasure inside.

CHAIN REACTION

Have you ever seen giant domino run or science machine and wondered - how do they do that? Well, now you have the chance to try it for yourself. Chain Reaction is a unique team building activity that has been specially designed to test a group's creativity and problem-solving skills. You and your colleagues will be tasked with building a free-flowing chain reaction along a series of platforms, ramps and towers. This giant reaction must start on the first platform and run all the way to the final tower without interruption.

ARCHERY

Archery is a great sport for building confidence. Its timeless appeal makes it the perfect choice for companies looking to reward their staff or take a break from a meeting or conference. One of the best things about Archery is that it works for all ages and abilities.

We have a range of high-quality recurve bows, so regardless of experience, strength or the hand you choose to write with, we've got equipment to suit you.

DESIGN AND DRIVE DERBY

Ready for the ultimate test of creativity, competitiveness, and teamwork? Introducing Design & Drive Derby! For this challenge each team will design and decorate their own remote-controlled racing car. The teams then take their cars outside to battle it out on our specially designed racing track. Points for design and fastest lap qualifying scores are combined to determine where each team will start in the final race - which team will come out on top?

CHOCOLATE MAKING

Discover the delightful world of chocolate making as you roll up your sleeves and immerse yourself in this incredible hands-on experience. Our skilled chocolatiers will guide you through the process using the finest ingredients and traditional techniques. During our class, you and your team will gain insights into the raw ingredients that make chocolate so special. Learn about the origins of cocoa beans, explore their unique flavors, and discover the art of blending them to create a symphony of taste.

THE CRYPTEX

Prepare to channel your inner cryptologist and get ready to solve our cryptex enigma in this unique and exciting treasure hunt! Teams start by following a trail of clues and completing a series of challenges which will test their ability to work collaboratively and problem-solve whilst up against the clock. Next, teams must decipher the code and spell out the password using the dials of cryptex to unlock the cylinder and reveal the location of a hidden cache of prizes! Which team will make it to the prize location first?

COCKTAIL MAKING

Experience an engaging cocktail-making class where you'll craft both classic and creatively reimagined drinks. This relaxed session provides the perfect post-work wind-down, offering a fun and enjoyable way to learn and create delightful libations. Whether a beginner or a connoisseur, join us for a relaxed, fun-filled exploration into the world of mixology.
