EVENTS & PRIVATE DINING AT BUNS & BUNS

It all began with a journey through Michelin-starred restaurants in London, the Spice Bazaar in Istanbul, Dim Sum restaurants in Hong Kong and artisanal “Boulangeries” in Provence. We were on a quest to find the finest flavours, recipes, baked goods, and their respective secrets.

IN THE HEART OF
COVENT
GARDEN

**Located inside
London's famous
Covent Garden
Market building
guests are greeted
by a towering
bamboo steamer
filled with pillowy
bao and an ice
display filled with
fresh lobsters.**

Located under the North Hall's iron and glass roof, Buns & Buns features an open-plan kitchen with low marble counter dining where visitors can interact with the chefs.

The space is decorated in warm, earthy tones with copper accents, and is strung with glowing filament bulbs and filled with greenery.

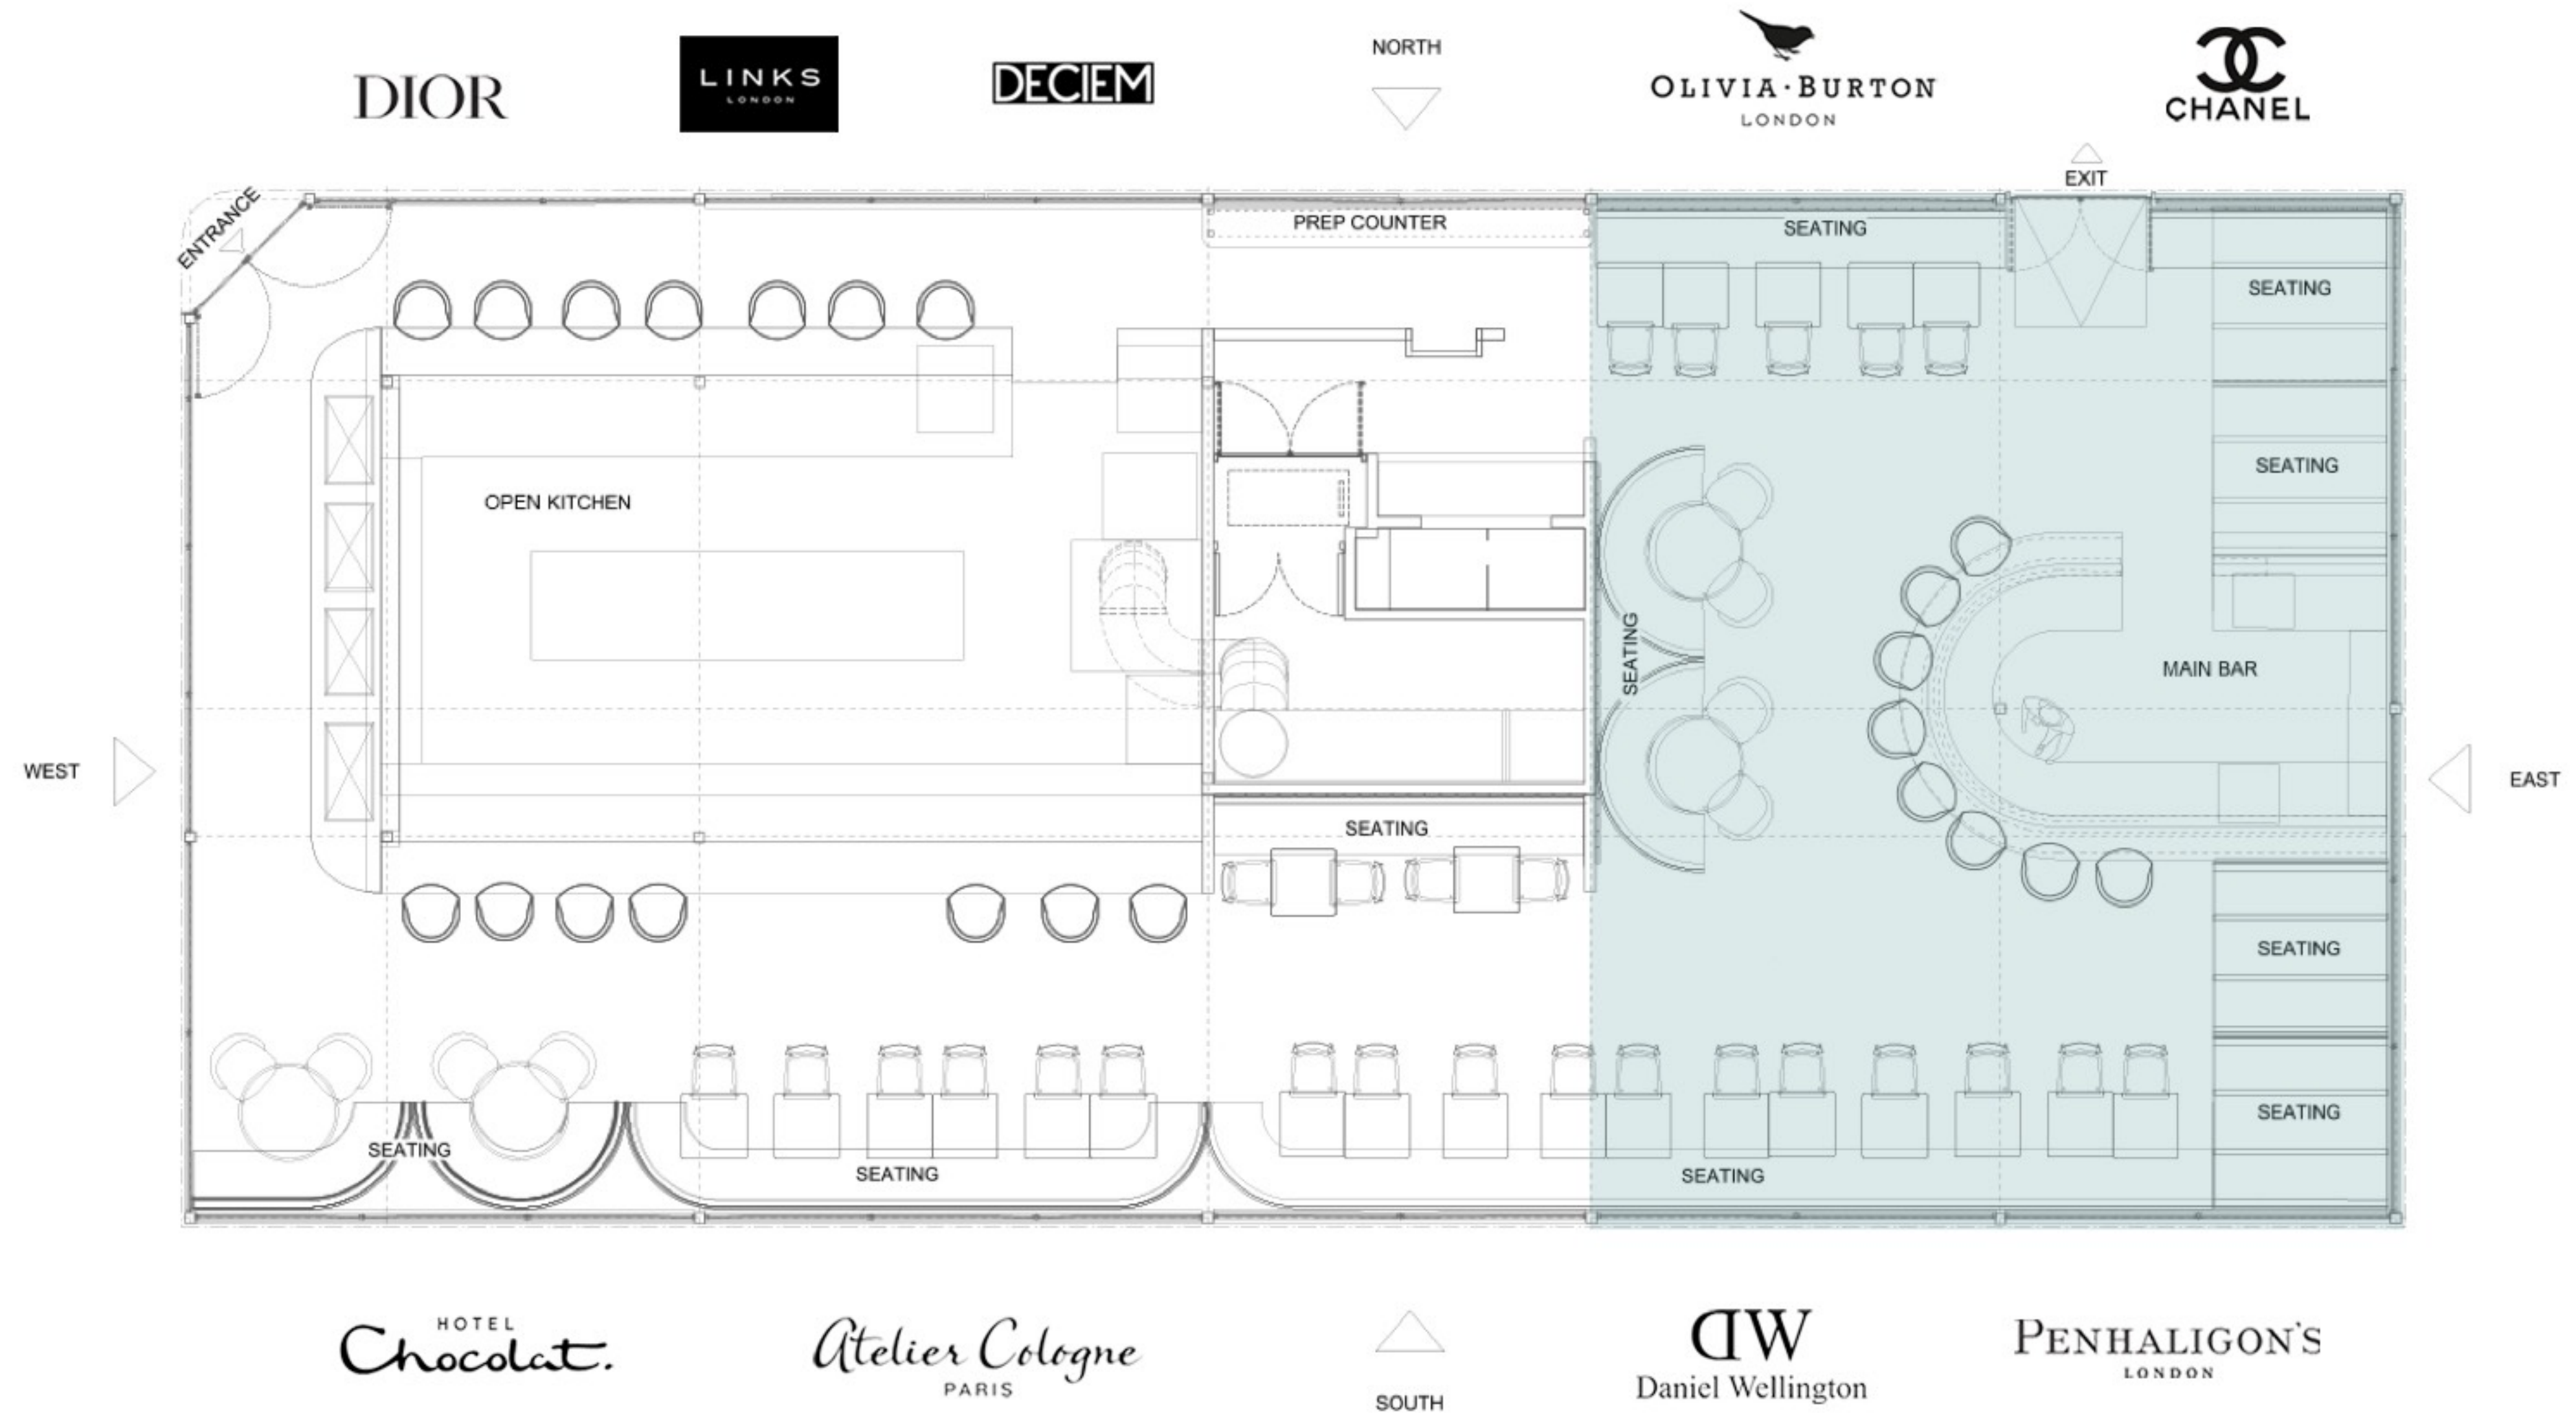

THE FOOD

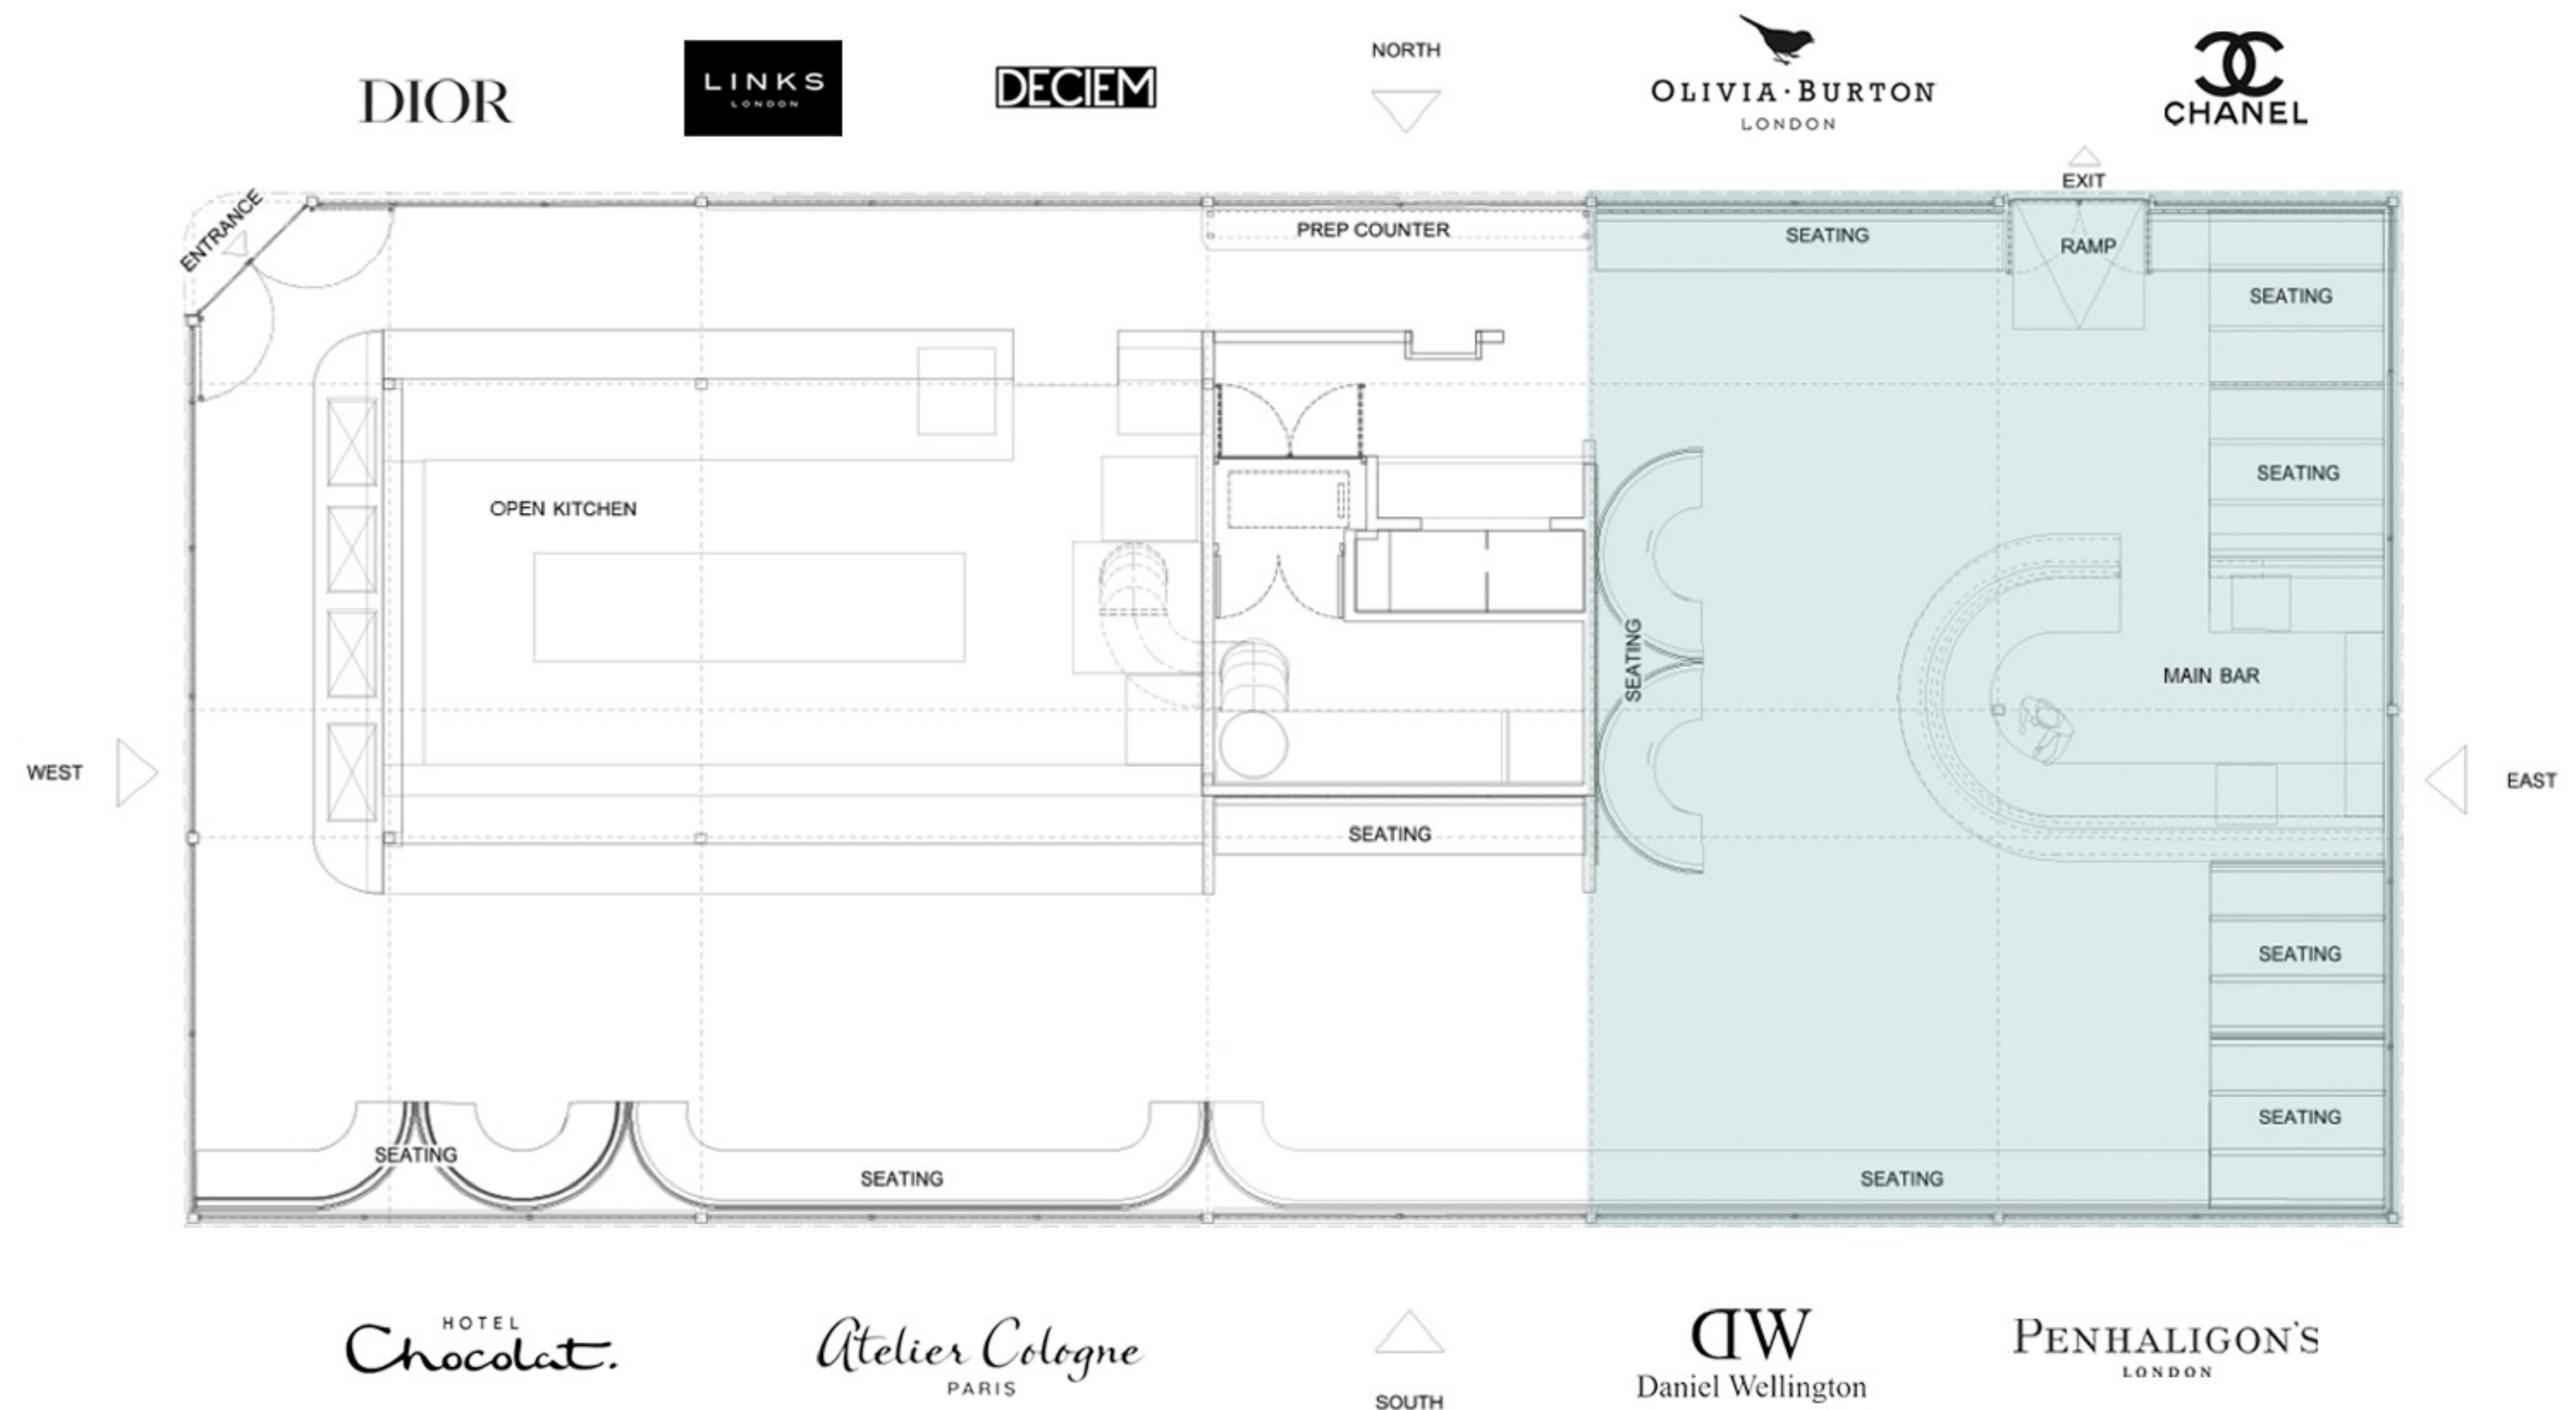

From bao buns fresh out of bamboo steamers, fluffy Roman-style pizza, and fresh brioche stuffed with lobster, Buns & Buns features a variety of favored international food all prepared in its open kitchen.
