Description:

The Cauldron® Magical Cocktail Experience is a 1 hr 45 min immersive class in Edinburgh, Scotland, where you wield a working magic wand and use molecular mixology to brew drinkable elixirs. After donning a robe and receiving a magic wand, you are led to an interactive work station where you test out your magic wand by pouring a welcome drink. You then choose two potions to brew from our range of molecular potion options, each of which have different traits and effects. The experience is largely self-guided, but a potions master is on-hand to make sure that you don't poison yourself!

Alcohol-free, gluten, and vegan options are all available.
