

Sustainability Pledges

We are ensuring sustainability is at the heart of our business.

Impressive sustainability practices have been set in place since day one. 100% of timber materials used on site were FSC-accredited certified to ensure they meet the highest environmental and social standards with forestry organisations worldwide.

There are 111 solar panels installed across the new building, with sensor-controlled lights in each space help contribute towards energy efficiency.

Furthermore, we are proud to be able to claim that no waste goes to landfill. Waste is separated into general, recyclable (card/metal/plastic), food and glass, batteries and print toners. 98.5% of total waste is recycled with a recycling point on every office floor. As a result of these initiatives, we are delighted to announce that we're on track for BREEAM Excellence Certification.
