Lucius

32 y.o ex-Rugby player – born the arse end of High Wycombe – Lucius was determined to run away with the circus

Left home at 17 to find his own way in the world. Starting off in Ecommerce and tech for Liberty, Jimmy Choo and Burberry but hated it – all he wanted to do was act and perform

Come 2013 Luke had found a small start-up circus to help him grow his skills... he started out as a fire performer and soon then moved into aerial arts. However, he slipped a disc after a traumatic cycling accident and did not perform for a year...

Started his own circus school which is now one of London's biggest – Forgotten Circus

Still not fulfilling his dreams of an aerialist he continued to teach – and rig at Proud – until (Me and alex) Proud forced him to do some new acts and he's never looked back!

Performed in:

Italy, Maldives, Croatia, Germany – running festivals all over the world for 7 years

Biggest being Capitol Summertime ball for 80,000 ppl!

Isabella Bliss

I undeniably one of the most popular burlesque artists in the UK cabaret scene. She is the poster girl of the internationally acclaimed tour 'An Evening of Burlesque' (seen by over 250,000 people to date).

Her signature 5-foot martini glass headlines the show

Isabella has performed for an array of high-profile clients and has been featured on TV for advertisements (Peugeot), as well as the hit E4 series Drifters, and BBC's 'Not Going Out'

Often referred to as the Marilyn Monroe of Burlesque, she effortlessly captures the silver screen goddess and truly brings her to life

Not just a pretty face, Isabella can sing her heart out too and was recently flown out to Dubai to sing Happy Birthday to an Arabian Prince!

This Australian artist began her career in childcare, and trained her backside off to quickly become one of the UK's (And Australia's!) highest-sought after aerial performers. Quite astonishingly, Kat even performed aerial acts whilst 9 months pregnant at Proud Embankment – a pro if ever there was one. Kat was one of the original Fuel Girls, touring enormous stadiums all over the world doing aerial and fire.

After making a graduate collection of Burlesque-inspired lingerie out of French lace and patent leather, my burlesque style morphed into that of rock 'n roll.
