the Stars*

Our Unique Heritage

Home to the renowned Jodrell Bank Observatory, a UNESCO World Heritage Sites since 2019, Jodrell Bank Centre for Engagement combines natural beauty with a touch of cosmic wonder. The Lovell Telescope remains the third largest telescope in the world and an icon of Cheshire's scientific heritage.

A bride and groom are standing together in a rural landscape. The groom is on the left, wearing a dark blue suit and a patterned tie, looking towards the bride. The bride is on the right, wearing a white, off-the-shoulder wedding dress with a long train and a tiara, holding a bouquet of purple and blue flowers. They are standing behind a wooden fence. The background features rolling green hills, trees with yellow and green foliage, and a clear blue sky with light clouds.

Our unique location

Set amongst 35 acres of picturesque Cheshire countryside, Jodrell Bank sits amongst tranquil rural villages and rolling hills. The venue offers a range of photo opportunities for newly weds with access to the on-site ornamental gardens, orchards and our rare specimen arboretum planted by Sir Bernard Lovell in 1950.
