"Awesome birthday experience for a bunch of 12/13 year olds and a couple of the parents. Very smooth, good suggestions by the hosts for four games/experiences for us all (none of us had done this sort of thing before). We were all buzzing afterwards. The hosts kept a close eye on us while we were all jacked in to make sure we were safe, and there were no technical hitches, glitches or delays. Overall - great stuff!"

"Took my Son to a birthday party with some of his friends, and our host Ambi was amazing with them very patient and guided them through the whole experience. Ambi was called to help and made the boys experience fun. Thank you Ambi"

Mashable

"When the first undead creature comes at you, they feel shockingly close - if you've ever wanted to hear grown up squeal, this is your chance."

WIRED

"The technology is incredibly immersive, and the set-up is perfect for that. You have a huge space to freely walk around in."

"So much fun! The place is clean and spacious, the game hosts are helpful and involved. Took my son for his 9th birthday and he wants to go back again next! They have a little bar so it would be great for an evening with friends and a great selection of games to play. Cannot recommend this enough."

Forbes
