BFI IMAX - Events Brochure 2019

Proudly presented by ODEON[®]

Proudly presented by ODEON

The BFI IMAX® offers a one of a kind, memorable experience. At more than 20 metres high and 26 metres wide, the BFI IMAX® is the biggest cinema screen in the UK, giving audiences a genuinely unique experience with a huge impact.

The luxury auditorium, which sits 498 people, is regularly used for product launches, conferences, private screenings and major events, and is the ideal venue for businesses looking to make a statement.

Perfectly located outside Waterloo station, the venue is extremely accessible using any form of transport from National Rail, London Underground, Bus or car. Making it very easy to bring attendees together for events, also benefiting from no restrictions for any accessible requirements.

With state of the art technology, events can benefit from displaying content on the largest IMAX screen in the UK to captivate their audience, leaving a memorable lasting impression. We have the additional ability to broadcast further afield with live satellite link ups, so events can broaden their horizons and reach audiences around the world.

A further advantage is that the BFI IMAX® is fully customisable, from the colour of the lights to the posters in the cases, so you can turn one of London's most iconic and accessible venues into your own, branded venue.
