EXPLORE BY THE POUR WITHOUT PULLING THE CORK

The Coravin™ System allows you to pour and enjoy fine wine without disturbing the natural ageing process by keeping the cork in the bottle, where it's been since it was first sealed at the winery.

Wine flows out but oxygen never gets in, eliminating the problem of oxidation. This process allows the wine remaining in the bottle to continue to evolve naturally.

At Fazenda, you can enjoy our finest wines without having to purchase the whole bottle. Explore the world of premium wines at accessible prices. Look for the Coravin logo on our menu next to carefully selected wines from the range.

*We believe South America is the most exciting wine region
in the world right now, producing the best wines
it has ever made.*

*Incredible quality for superb value, South American
premium wines are only getting better each year.*

*This is a very
large region, so
we encourage you
to venture into
learning about the
different areas and
the stories behind
the people making
them world leaders
in wine.*
