

THE  
TRAFALGAR  
ST. JAMES

EXCEED YOUR CURIOSITY

## ALL ROADS LEAD TO TRAFALGAR SQUARE

London's most centrally located hotel, The Trafalgar St. James is a luxury five-star hotel just mere moments from Soho, the West End and Mayfair, and offers the curious traveller a sanctuary of style, rest and play in the heart of the capital.

The hotel is steeped in unique rich history; its building was once home to the Cunard Steamship Company, where news of the sinking of the Titanic was first received.

It features 131 bedrooms, including 15 exquisite suites, and has two food and drink outlets: The Rooftop, which features unparalleled views of the city, and Rockwell, a jungle-like sanctuary of the surreal, designed for drinking, dining and escaping the mayhem of central London.

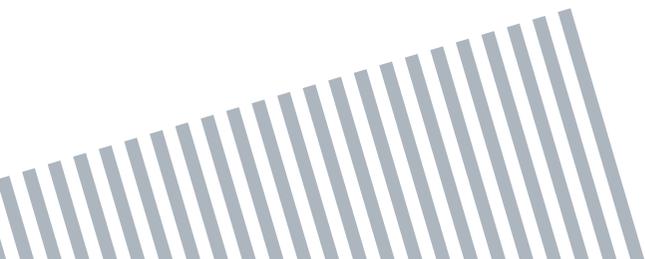

The hotel has been artfully designed to offer guests a relaxed and memorable stay. Art Deco features evoke the glamour of travel's golden age, while tactile furnishings, bold colour choices and playful ornamentation create the perfect playground.
