

A hand with red-painted nails holds a coupe glass filled with a light-colored, bubbly drink. The background is a dark, abstract composition with vibrant, blurred colors of red, orange, green, and blue. The overall mood is sophisticated and artistic.

## *Menu*

---

Our menu is inspired by Eran Tibi's life – a fantastical fusion of Tunisian, Syrian and Greek cuisine that spans a spectrum of Eastern Mediterranean flavours. Kapara's dishes are classic yet creative in concept, laced with love, and designed to be devoured with delight to a debaucherous soundtrack.

Personally created and developed by Chef Founder Eran Tibi, who takes inspiration from his mother's Syrian home cooking and generations of baking expertise, the menu focuses on the enjoyment of fresh, sustainably sourced ingredients.

The drinks programme includes an award-winning selection of wines and a special "Gazoz" menu infusing soda, botanical herbs and fresh exotic fruits.

The image shows a restaurant interior with a striking design. The ceiling and walls are covered in large, dark mirrors that create a complex, multi-layered reflection of the space. Numerous spherical pendant lights are suspended from the ceiling, casting a warm, ambient glow. The dining area is filled with tables, each set with white plates, glasses, and small lit candles. The chairs have dark wooden frames and orange-colored seats. In the background, a bar area is visible with shelves of bottles and more lighting. The overall atmosphere is sophisticated and modern.
