NIHON SHU

Sake is a traditional Japanese alcoholic beverage made from rice, koji and water.

Alcohol may also be added.

Its classification is based on ingredients, quality and rice milling rate.

It is not exactly known when people began making sake in Japan.

However, it is believed that an analogous drink was already made
in the Yayoi period (300 BC - 250 AD) when rice cultivation was

Brought from China to Japan.

Fine sake is similar to wine in its potential for serious gourmet appreciation.

Often fruity essence dominates, other times rice based, grainy flavors are prevalent.

Five crucial elements are involved in brewing sake:

RICE, WATER, KOJI, YEAST, TECHNICAL SKILLS AND LAND
