

AFTERNOON

T
E A

It was in 1840 that Anna,
the seventh Duchess of Bedford,
noticed she felt a '*sinking feeling*'
around mid-afternoon. Once served
with a pot of Darjeeling tea,
some bread, butter and biscuits,
she felt decidedly better.
The afternoon tea was born.

An exquisite species, second largest of the sturgeon family reaching up to 1000kg. It is also known as the "river beluga" as it is the only other sturgeon from the Huso family, the other being the Huso huso (Beluga). Extraordinary variety of sturgeon that also produces the most amazing and large grains of caviar. Due to the old age of the fish and over a decade of waiting needed to produce caviar, the roe is one of the most prestigious and sought-after.

CORINTHIA LONDON TEA BLENDS

The strength of tea is often obtained by the amount of tea leaves used while its potency depends on the length of the brewing process involved.

Precision timing is required in brewing, as if it is done longer than necessary, it can result in undesirable flavours.

Here at the Crystal Moon Lounge, we differentiate the strength by adjusting the blends of our afternoon tea.
