AFTERNOON

T E A

It was in 1840 that Anna,
the seventh Duchess of Bedford,
noticed she felt a 'sinking feeling'
around mid-afternoon. Once served
with a pot of Darjeeling tea,
some bread, butter and biscuits,
she felt decidedly better.
The afternoon tea was born.

CORINTHIA LONDON TEA BLENDS

•

The strength of tea is often obtained by the amount of tea leaves used while its potency depends on the length of the brewing process involved.

Precision timing is required in brewing, as if it is done longer than necessary, it can result in undesirable flavours.

Here at the Crystal Moon Lounge, we differentiate the strength by adjusting the blends of our afternoon tea.
