BIENVENIDOS | BEM-VINDO | いらっしゃいませ

Introducing the newest chapter in our *signature cocktail journey*, UNITY by Water, a sequel to last year's UNITY cocktail menu. This year, UNITY evolves to meet the *essence of Water*, with *sustainability* at the core of the cocktail list.

Continuing the legacy of last year's success, the new menu is a testament to *collaboration*, where, once again, Bar Manager Gaston Fusco and his team of talented mixologists merge their expertise, infusing their diverse backgrounds into 12 unique concoctions, each a celebration of culture and craft.

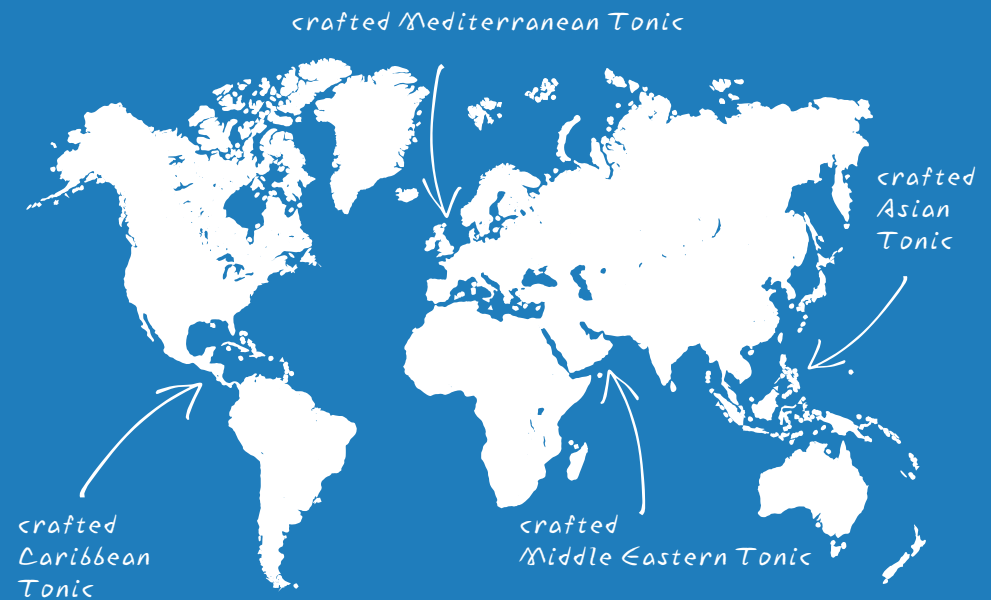

Embracing the vital element of Water, we have embarked on another sustainable endeavour. *Harvesting rainwater* atop our hotel, we transform it into *bespoke tonics* with Mediterranean, Asian, Caribbean, and Middle Eastern nuances, embodying the essence of each region. Additionally, we explore innovative techniques like maceration, infusion, and the use of an Ultrasonic Homogenizer, *repurposing breakfast leftovers*, and embracing *creativity* in our cocktails.

Behind the scenes, our new laboratory is a playground for experimentation, where the bar team's passion for chemistry and mixology converge. From concept to creation, every element of our new cocktail menu reflects our dedication to creativity and sustainability.

We hope that as you sip your way through the *UNITY by Water* menu, you will experience the artistry of our creations and enjoy Water's timeless allure in unique ways.

HARVESTED RAINWATER *cocktail selection*

We have embraced sustainability by implementing a groundbreaking approach to crafting our tonics. By harvesting rainwater from the rooftop of our hotel and utilizing a *9-stage Gravity Water Filter System*, we transform Water into *bespoke tonics*. The result is a collection of custom-made tonics that not only celebrate our world's diversity but also embody each region's essence.

MARINO

Marino is a tribute to the eternal dance between land and sea, a symphony of flavours that celebrates the beauty and majesty of the marine world.
