# LISBOETA

*This list is a celebration of Portuguese wine, dedicated to both new and old-world styles. Portuguese wine has changed significantly over the last five years, as new generations of winemakers bring their global experience back to Portugal and engage in new techniques, dedicated to a more sustainable and natural approach.*

*At Lisboaeta, we highlight local producers from the Lisboa region and sub-regions, featuring highly regarded historic producers, alongside young winemakers in Portugal's emerging natural and low intervention scene.*

*These wines also reflect Nuno's long-standing personal relationships across the industry, with bottles from special collaborations with winemakers such as Dirk Niepoort and our friends at Quinta do Montalto.*

*Most Portuguese wines are field blends, rather than single grape, meaning many of the wines featured on our list are produced with multiple grape varieties planted in one vineyard. You will also find wines that are a blend of both white and red grapes, known as Palhete.*

*Our list is arranged in order from light to full-bodied.  
A member of our team would be delighted to help you make a selection.*

## LISBOETA X NIEPOORT

*We are delighted to share a series of unique wines from across the Niepoort estate, produced in collaboration with Nuno Mendes and renowned winemakers Dirk & Daniel Niepoort.*

*Beyond a homage to their longstanding friendship, this collection is grounded in the belief that exceptional wines needn't be precious. Together they aim to create wines free of pretention, just as at home in the cellars of Charlotte Street as they are at a picnic in the park.*

*From the vineyards of Douro, Dão and Bairrada, to the cellars of Vila Nova de Gaia, these playful wines celebrate Niepoort's iconic style, terroir-led and biodynamically grown, using field blends of native Portuguese grapes.*

*The names – Tiny Bubbles, Amigos, and Park Juice – are a nod to their creators' colourful histories, and the times they've shared together. Whether that's a raw, piercing, sparkling wine drunk in a tasca down a winding lane by Dirk's vineyard, or the aptly named Park Juice – an easy-drinking, low ABV litre bottle, made for sharing – these wines celebrate the innovation alive in Portugal's wine scene, and the family that blazed the trail.*

#### **Quinta do Ribeirinho 2022**

Sercialinho - BAIRRADA

*Crisp and complex with good texture and a long-lasting finish displaying layers of star anise, white stone fruits and dried thyme*

175

## UNDERWATER WINES

*The result of an experiment to replicate the wines that were produced and drunk during the time of Vasco de Gama. It was noted that wine transported aboard Caravel ships had a markedly improved taste compared to the same wine that had aged on-shore, due to the constant motion of the swell of the sea.*

*Now a regular occurrence, Luis places 250 bottles of wine in crates and drops them 20 metres to the bottom of the ocean where they remain immersed for 12-21 months. Here a constant temperature is achieved, which is ideal for the wine's evolution. The gentle rocking and rolling of the waves replicating those wines from centuries past.*

*This is a truly Atlantic winery - its vineyards just a few kilometres from the coast. Grapes are grown without the use of chemicals with a low intervention approach.*

### **Herdade do Cebolal, Emerso red 2021**

198

Castelao - SETUBAL

## NIEPOORT REDS

Founded in 1842, Dutchman Franciscus Marius van der Niepoort emigrated to Portugal to begin his business as a port seller without land nor vineyards.

Since 1987, Dirk has led the fifth generation of the family business to new heights. He is regarded as one of the most influential, innovative and pioneering winemakers in the Douro, paving the way for much of the success of Douro's still wines.

The Niepoorts don't limit themselves to the Douro Valley, Dirk has vineyards and projects extending across Dão, Bairrada, Vinho Verde and Alentejo.
