John Nugent, Chief Executive at Green & Fortune, said: *“We are thrilled to celebrate 15 years as a business. Green & Fortune was the first restaurant, events and hospitality company to launch in the new look Kings Cross and I am proud to have been an early adopter of the area with visionary developer, Peter Millican. We have been involved with many great people, community groups and commercial organisations in this time and this sense of community is at our core as a company. Launching the business in 2008 had many challenges, especially the worldwide financial crisis that came at that time. Today, to be partnering with great organisations and four of London's premium venues, is a very proud moment for us all. I am delighted to have created a business, born out of modest roots in Kings Cross, that now has both a London and international reach. We have had and continue to have great people on this journey and without them, Green & Fortune would not be what it is today”.*
