# GUIDE

## Beef Noodle Soup Tips

### 1 OBSERVE & SMELL

Observe and breathe in the broth's aromas.

### 2 GIVE RESPECT TO THE BEEF

Give thanks & tap the beef so it submerges into the broth to moisten up. Say see you soon.

*If you are having the light style broth, keep tapping the beef into the soup so it lightly poaches.*

### 3 SLURP THE NOODLE

Slurp the noodle whilst the other hand scoops the broth with the spoon. The louder you slurp the more complimentary you are being to the chefs.

### 4 DRINK THE BROTH

Now drink that broth.

*If you are drinking the light style, don't be afraid to pick up and drink from the bowl.*

### 5 EAT THE BEEF

Time to eat the meat, take a bite and repeat the process from step 3.

*If you are having the light style broth, dip the beef into the egg yolk.*

## BAO Index
