

FONDA

Our cocktail list is anchored in agave, featuring a dedicated Paloma section and reimagined classics replicating Mexican flavours with British ingredients.

Our wines feature a selection of lesser-known regions and grapes, favouring smaller, quality-driven producers and lighter, intensely aromatic styles to complement the food.

AGAVE & SOTOL

A highly complex alcoholic spirit made from the fermented and then distilled juice of any cooked agave heart or 'piña'. Mezcal made from the agave azul in the state of Jalisco and some neighbouring districts is referred to as tequila. Most mezcals these days come from the state of Oaxaca, but we always have some examples from other states available.

SOTOL

Sotol is crafted from Dasylirion, or the Desert Spoon plant. Distinct from Agave, this succulent hails from the arid heartlands and mountains of Chihuahua, Coahuila and Durango. Although a cousin of Agave, the flavour profile is distinct - resinous, grassy and bright in the mountains, and earthy, spiced and honeyed in the desert.
