

Local winemakers are winning international prestige. Today, English wine is rightly regarded as some of the best in the world, with a confident, contemporary identity, and that includes those benefiting from the outstanding soils and superb local microclimates of the South West.

Our best regional wines are never mass produced.

They come to us from small, low-yield vineyards using traditional, sustainable techniques, with great regard for their environment. They are crafted by a knowledgeable and supportive community of winemakers whose passion for quality and character is always infectious.

We serve an exciting selection of fine English and European wines and encourage you to explore them with your meal.
