TRAFFORD CENTRE

The Trafford Centre was opened in 1998 and inspired by the Greeks with stunning marble seen throughout.

Our cheesecake takes inspiration from this with flavours that symbolise traditional Greek cuisine.

MANCHESTER SKYSCRAPERS

Surrounding Cloud 23 itself, the Manchester skyscrapers define the city's bold future.

From pioneering towers to newly emerging high-rises, the ever-changing skyline reflects a city that continues to grow upward, embracing progress while honouring its past.

SCIENCE & INDUSTRY MUSEUM

During the industrial revolution, Manchester was one of the world's first industrial cities. The city was seen as a hive of activity and soon local writers began using the worker bee as a metaphor for hard work, productivity and cooperation.

The use of Manchester honey in our dessert signifies this as well as charcoal which gives a nod towards the fuel that made the city possible.

MANCHESTER LIBRARY

To the South, the grand silhouette of Manchester Central Library is instantly recognisable.

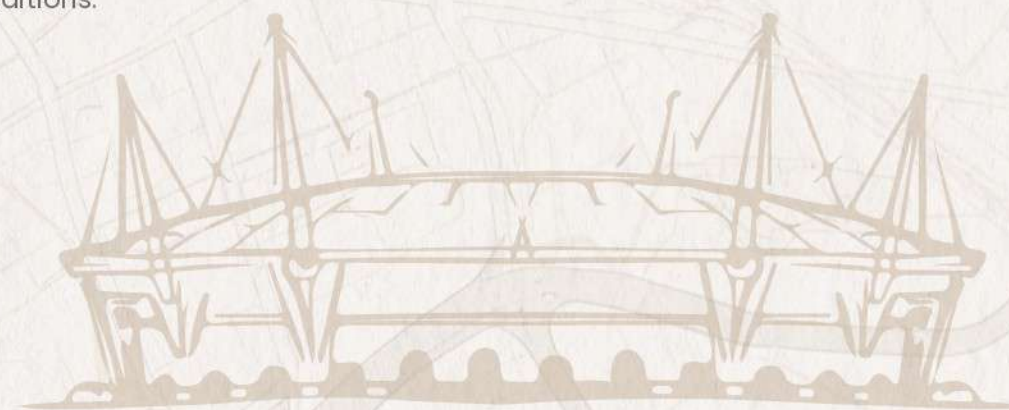

With its circular design inspired by the Pantheon in Rome, the library represents knowledge, culture, and civic pride, standing as one of the city's most cherished landmarks.

MANCHESTER TOWNHALL

The Victorian era brought two of Manchester's most famous creations and both exist due to the same conditions. The Town Hall was a sign of industrial success, order, authority and pride.

The Manchester tart emerged within ten years and was grown from Victorian custard and jam desserts and working-class food traditions.

ETIHAD COMPLEX

The Etihad Complex, originally built in 2002 for the Commonwealth Games, became the home ground of Manchester City Football Club the following year.

Our dessert is inspired by the stadium's iconic shape and celebrates the club's partnership with Cadbury chocolate.
